Is there an impact to changing our Item call number types to Unknown?

Applies to

- WMS Acquisitions
- WMS Circulation

Resolution

Changing items to a Call Number type of "Unknown" will cause them to not appear in call number browse indexes.

More Information

The Call number type field is used to identify what kind of call number is being used for this item. For example, whether the call number in the LHR's 852 tag is a Library of Congress (LC) classification or Dewey Classification code.
