Learn how to perform a basic search in CatExpress.

**Basic searching**

Use the Basic Search screen to search for items by standard number, keyword, or title.

To search other indexes, use the Advanced Search screen. On the navigation bar, under Search Options, click Advanced.

**How to search**

1. On the Basic Search screen, select the type of search you want.
   - **Standard Number**
   - **Keywords**
   - **Title Phrase**

2. In the Search for box, enter a **number, word(s), or title** to find the records you need.

3. (Optional). To limit results to records in your preferred language of cataloging, use the **Apply Language of Cataloging Limiter** check box. Click to select the check box and then choose one of 11 languages from the list.

4. Click **Search**.

Stopwords

If you type a stopword along with valid words in a search, the system ignores the stopword and processes the search. If your search includes only stopwords, you receive an error message.
