- Authentication and authorization
- Encryption
- Patron authentication using a third party system
- Security in Relais

- Patron records

No image available

For each patron that submits a request into Relais ILL a patron record must exist. Patron records created in several different ways, including patron registration, self registration, patron load, and NCIP.

- NCIP generated patron records
- Patron load
- Patron merge
- Patron registration
- Patron types

- Library and Supplier records

No image available

- Library registration
- Sequencing tiers and suppliers
- Supplier registration

- Receive and enter requests

No image available

Relais ILL supports multiple options for entering and receiving requests, both from your own patrons and from other libraries. Irrespective of which method is used to enter or receive requests, all requests follow the appropriate processing rules.

- Entered by staff
- Flat file using LoadRequest
- From DOCLINE
- Pass to Relais
- Received from other libraries

- Troubleshooting

Find frequently asked questions (FAQ) and troubleshooting steps (Troubleshooting).

- Are the login credentials case sensitive?
- Can a full header and footer be added to the pages?
- Can the wording used for the request status, e.g., Submitted, In Process, On Loan, Unfilled, Complete, be modified?
- Can we choose what is displayed in the history?
- In the request templates, is 'Requester Info' used to enter the end user id in Library requests?
- In the request templates, is 'Request Source' used for the source of the citation?
- In what format and what size should the logo be for the Relais Header?
- Is there an option for a patron or library to request their login / password, e.g., if it has been forgotten?
- Once the forms are in use, are we able to modify them ourselves or do we submit a Support ticket?
- What are the definitions of the statuses that display on the Request List and Request Details?
- What browsers are supported for the Relais Portal?
- When completing the Request Templates spreadsheets what does 'Required' mean?
- When completing the Request Templates spreadsheets what does 'Show if data' mean?
- With the current web pages, my library handles patron authentication outside Relais, is this approach still available with the Relais Portal?
- With the library’s change password option, will that change the library’s password in our database or will the request go to staff to make the change?
