I want a WebReport of the number of Borrowing requests that have been closed in ILLiad over a period of time?

Last updated: Tue, 21 Dec 2021 19:51:29 GMT

Symptom

- You want to number of Borrowing requests that have been closed in ILLiad over a period of time through the WebReports.

Applies to

- ILLiad

Resolution

You can find the number of Borrowing requests that are at request finished over a period by doing the following:

1. Go to the WebReports for your site. That will be most likely, https://(your site)/illiad/webreports/default.html
2. Go to the Borrowing reports.
3. Chose the Request Finished report.
4. Put in the Dates you need for when the start date and end dates are.
5. Select the sites you need.
7. You will see the Articles and Loans finished for that period.

Or you can use the Fill Rate Statistics and get the total at the bottom of the report.
