How do I update the new 9.1 Web Pages with my Generic Requests that are part of the include menu.html?

Last updated: Wed, 20 May 2020 15:16:56 GMT

Symptom

• You want to know what you need to update in the 9.1 Web pages for your Generic Requests

Applies to

• ILLiad

Resolution

The Generic Request pages do not change. You update the include_nav.html Web page with the Generic Requests that you have in your current include_menu.html coding.

Page ID

30661
