If you delete expired users using the “Users For Auto-Deletion” folder, will the copies on loan for that user also be deleted? And if it was the last copy of the title, will the title also be deleted?

Last updated: Fri, 05 Jun 2020 13:44:37 GMT

Applies to

- OLIB (all versions)

Answer

When using the “Users For Auto-Deletion” folder to batch deleting a user, it will delete the copies that user has on loan. If one of the copies the user has on loan is the last copy of a title it will delete the title too so it is always worth checking this.

Additional information

Note: This will happen regardless of the setting Auto-Delete Title if All Copies are Auto-Deleted? in System Administration > OLIB Defaults > Daystart
