Why is the error incomplete contact information for patron appearing when I try to send an email?

Last updated: Tue, 19 Apr 2022 15:50:09 GMT

Applies to

- Tipasa

Answer

Check the patron's account under **WorldShare > Admin > Delivery Notifications** to verify they have a valid email address and phone number with country code listed. Though account management emails usually go out via the email address under the Library Record, interlibrary loan notifications use the email and phone number specified under Delivery Notifications.
