How can I set a default language for WorldShare ILL or Tipasa?

Last updated: Thu, 11 Feb 2021 18:05:25 GMT

Applies to

- WorldShare ILL
- Tipasa

Answer

The language of the WorldShare platform can be changed to a select-few languages by selecting the arrow in the top-right selecting Language, and then selecting your desired language.

This change is account based, and does not change the language for all users.

If your desired language is not available, you will need to change the language settings of your browser.
