WorldShare Interlibrary Loan provides functionality that speeds fulfillment of interlibrary loan requests to save time for your staff and users.

• Get started

No image available

Get started with WorldShare Interlibrary Loan.

◦ WorldShare ILL account roles
◦ Add a privacy notice
◦ Create a WorldShare ILL account
◦ ILL for management centers
◦ Prepare and plan
◦ Set or reset your password
◦ Sign in to Interlibrary Loan

• Borrowing Requests

No image available

Create, manage and process borrowing requests.

◦ Borrowing Request fields
◦ Create and edit requests
◦ Email a copy of a request
◦ Process requests-Borrower
◦ Return items
◦ Search for requests

• Lending Requests

No image available

Manage and respond to lending requests.

◦ Complete requests
◦ Deflections
◦ Edit lending requests
◦ Email a copy of a request
Respond to requests
  ◦ Search for requests

• Configuration

  No image available

  Administrative settings for WorldShare Interlibrary Loan are maintained in OCLC Service Configuration. In Service Configuration, you can set your interlibrary loan options, print settings, borrower and lender constant data, custom holdings groups, automations, and purchase options.

  ◦ Interlibrary Loan Options
  ◦ Borrower Data
  ◦ Lender Data
  ◦ Custom Holdings Groups
  ◦ Custom Holdings Paths
  ◦ Automated Request Manager
  ◦ Article Exchange Retention Settings
  ◦ Purchase Options
  ◦ Patron Request Workforms
  ◦ Print Settings
  ◦ Advanced Workflows
  ◦ Patron Settings
  ◦ Notifications
  ◦ External System Settings
  ◦ Tipasa WMS Integration

• Smart fulfillment

  No image available

  Find information about Smart fulfillment features, which increase the speed of delivery of materials based on policy data, lending history, licensing agreements, format preferences, and more.

  ◦ Real-time availability for ILL
  ◦ Automated Request Manager
  ◦ Smart lender strings through the Automated Request Manager
  ◦ Express program
  ◦ Improve turnaround time
  ◦ Other OCLC services that interact with smart fulfillment
  ◦ Turnaround Time dashboards

• Article Exchange

  No image available
Article Exchange provides a single secure location where lending libraries can place requested articles for interlibrary loan. It allows users to upload files for pickup anywhere in the world. Only authorized users will be able to download the file.

- Article Exchange workflow
- Technical requirements

**Batch processing**

*No image available*

Use batch processing to receive, return, and complete requests for multiple items.

- Batch processing for borrowers
- Batch processing for lenders

**Constant data**

*No image available*

This guide provides an overview of product features and related technologies. In addition, it contains recommendations on best practices, tutorials for getting started, and troubleshooting information for common situations.

- Constant data

**Discover Items**

*No image available*

When you click Discover Items on the left navigation, an Advanced Search form will open on the screen. Completing a basic search will pre-populate the Advanced Search form with the terms from the original search. You can also conduct a search using only the Advanced Search form.

- Search

**Document suppliers**

*No image available*

The documentation in this section explains how to receive articles from document suppliers such as the British Library, Get It Now, and MyBib.

- British Library
- Get It Now (mediated service)
- Use MyBib eL for delivering documents

**Purchasing Requests**

*No image available*

The Purchase option allows you to track items you may wish to purchase, instead of borrowing via interlibrary loan.
Purchasing Requests

• Interlibrary Loan Fee Management

No image available

The Interlibrary Loan Fee Management (IFM) feature lets libraries reconcile resource-sharing charges and payments through their monthly OCLC invoice. IFM helps libraries save money on fee-based transactions and simplify the transaction process.
  ◦ Configure IFM
  ◦ Manage IFM

• Print

No image available

With WorldShare Interlibrary Loan, you can print individual requests, all requests in a queue, add requests to the print queue to print out later, and queue book straps and shipping and return labels to be printed.
  ◦ Printing for Borrowers
  ◦ Printing for Lenders
  ◦ Printing for Purchasing Requests
  ◦ Print requests and manage print queue

• Reports

No image available

Reports are available to WorldShare ILL users through OCLC Usage Statistics.
  ◦ OCLC Usage Statistics
  ◦ Use the Reasons for No Reports to optimize borrowing and lending

• WorldShare Circulation Integration

No image available

WorldShare Interlibrary Loan and WorldShare Circulation integration provides you with a method to streamline the interlibrary loan-circulation process and workflow. Librarians and staff who process interlibrary loan (ILL) requests through WorldShare Circulation no longer have to manually create temporary items or holds for ILL requests.
  ◦ Exception Processing
  ◦ Integration Workflow
  ◦ Policy Considerations
  ◦ Set up integration
